

NAVIGATORS WANTED

Concept Designer (m/f) | full time | permanent

At ... and dos Santos, we strive to create a better world for tomorrow. We are explorers in an ocean of endless possibility. With our work, we want to inspire society to be open to the tremendous opportunities in digital innovations, and to create extraordinary experiences for our clients and their customers.

The heart of ... and dos Santos is our international collective of high-profile thought leaders, experts and distinguished creatives. These include scientists, designers, software developers, directors as well as photographers, musicians, authors, fashion designers and more. Our model highlights the ways in which innovation and creativity are utilized today to deliver unique concepts, ideas and execution to our clients, including: Accenture, Coca-Cola, Deutsche Bank, L'Oréal, Olympus, Red Bull, Vodafone and Walt Disney. To strengthen our team, we are looking for passionate and focused minds to navigate with us through new worlds with energy and curiosity, paving the way for remarkable experiences and developments within our community.

As Concept Designer, you support us with your ideas in strategic concept development and UX design. Your expertise will guide the entire innovation process. You understand products, target groups and the market and are able to translate technology into function, utility, values and emotions. You have a strong visual language and can express your ideas thoughtfully and clearly. You create visuals and presentations with confidence and share our passion for digital projects (AR, VR, AI, mobile, ...), new technologies (robotics, sensors, EEGs, ...) and innovative design.

RESPONSIBILITIES ...

- Helps reviewing and outlining the project tasks based on clients briefs by reviewing and analyzing research and trend studies
- Develops the conceptual designs of interactions, experiences, processes and strategies for categories, brands, products, services, communication and processes
- Tracks core trends (technology) to understand how people's needs and motivations evolve
- Translates concepts into sketches and basic models, creates content and creative briefs, follows up, measures the results
- UX development (such as mobile apps, installations, websites, etc.)

ROLE REQUIREMENTS ...

- Goal-oriented strategic pioneer and navigator with initiative and self-confidence
- Dynamic and agile environmental scanning of international trends and customer moves
- Profound design thinking expertise
- Bachelor's degree in visual communication, corporate business communication, art and media, design or similar with a keen sense of innovative design and a strong passion for technology
- 2+ years of professional experience in concept development (UX), knowledge of the current user interface standards
- Proficient use of Mac OS X, XD, iWorks, other Adobe Creative Cloud programs a plus
- German, fluent in spoken and written (at least C2); English, fluent in business (B2)

PERSONAL QUALIFICATIONS ...

As our next Concept Designer, you should have great personal and interpersonal skills, as these are especially useful for interactions with experienced creatives and clients. You should be a team player whose heart beats for innovative ideas as well as how to bring them to life. You can shrewdly and enthusiastically present your ideas, with a focus on maintaining accuracy in the details. As a creative mind, you can inspire yourself and others to rise for any challenge — no matter how big or small. You can work independently with a positive, results-oriented attitude. Most importantly, you have a love for continually learning new things. Let us know in your application which of our projects inspires you the most and why.

WHAT WE OFFER ...

... and dos Santos offers you the chance to gain first-hand experience in the fields of digital transformation and disruptive technologies. You will manage exciting tasks, bringing to life your innovative ideas — from conception to implementation. You gain access to an exclusive environment of diverse experts, opinion leaders and distinguished international clients. We have confidence in your abilities; we appreciate your experience and opinions, and have created an open environment giving you the space needed to grow and develop. Become a part of our team of inspiring and creative explorers.

Interested? Find out more about us at anddossantos.com, and send your application and portfolio to Jutta dos Santos Miquelino (hr@anddossantos.com) or call +49 331 9718 9080.
